

PRESS RELEASE

Arjen Radder appointed as new CEO of Bergman Clinics Group

Naarden, 21 July 2022 - **The Supervisory Board of Bergman Clinics Group has appointed Arjen Radder (55) as its new CEO. Arjen Radder will start as of 1 September 2022.**

As CEO of Bergman Clinics Group, Arjen will focus on the international growth in Germany and Scandinavia and on further strengthening the plannable care in the Dutch focus clinics. In addition, Arjen will focus intensively on building client experiences and providing strong clinical outcomes through operational optimization and digital transformation.

Arjen Radder has a background relevant to Bergman Clinics Group. After obtaining a PhD in medicine, he gained extensive leadership experience at Numico and for the past 20 years at Philips. There he held various international healthcare positions, including in the United States, Europe (Nordics and the Netherlands), Asia and the Middle East. Currently Arjen leads the MRI, Diagnostic x-ray and components businesses for Philips worldwide.

He commented: "In recent years I have worked closely with private players in healthcare and have therefore experienced the important role they play in the healthcare system. For that reason, I am very much looking forward to starting at Bergman Clinics. What also appeals to me about this organization is that the client is always at the center. Every client expects an optimal experience and the best possible clinical outcomes. This can only be achieved by delivering top quality and appropriate care organized around the client, by a team of qualified professionals. With my love for healthcare, knowledge and experience, I am thrilled to contribute to that."

The Chairman of the Supervisory Board of Bergman Clinics Group, Jos Lamers, is also enthusiastic: "The Supervisory Board of Bergman Clinics is pleased with the appointment of Arjen. Bergman Clinics is doing well, there is a solid foundation. With his international knowledge in the field of healthcare and digitalization, Arjen can work together with the professional team at Bergman Clinics to further lead our international growth. I therefore look forward, together with my colleagues, to a pleasant collaboration."
